The only pure liquid sweetener from stevia extract

Awish Health  
stevia natural sweetener

**Mazeh Sazan Nopajouh Shomal Company (Awish Food Industry)** is the first and only knowledge-based company licensed by the Food and Drug Organization in the field of liquid sweetener production from stevia in Iran. The products of this company are 100% organic and natural and based on the innovative techniques of this company's specialists (patent number 86180) and are prepared from the leaves of the stevia grown in our country.

The commercial product of this company under the name of **Stevia Liquid Herbal Dietary Sugar** under the brand **Awish Health** has been awarded the Sib Salamat Label from Food and Drug Administration since 2016, and currently the company is ready to produce 200 liters daily and 56,000 liters annually of liquid stevia extract with Brix 3%. Currently, the products of this company are available in three packaging forms: 5 cc sachets with 3% Brix in packs of 20, 15 cc dropper concentrate with 50% Brix, as well as 900 cc PET Food Grade Bottles with 50% Brix. The products of this company are used in the additives of hot and cold drinks, including serving in restaurants, coffee shops, and inflight drink packs, in the food industry, the dairy industry, the production of carbonated soft drinks, fruit juice, and the pharmaceutical industry, as a permitted diabetic sweetener in medical syrups. One of the properties of this company is the production of the only Iranian liquid organic product with a purity of more than 95%, and compared to the foreign product, it does not contain preservatives and alcohol, and its prime cost is 50% lower than that of the foreign product.

### The Benefits of Consuming Stevia Diabetes Control

One of the most important health benefits of stevia is blood sugar control. In simple words, Awish Stevia Herbal Dietary Sugar is not absorbed by the body and does not cause blood sugar to rise. Stevia extract has a very high sweetening power, that is, about 100 to 300 times more than the sweetening power of sucrose (refined white sugar). The prevalence of liver cancer in people with diabetes is 4 times higher than in other people. Therefore, by controlling and treating diabetes, other related diseases can be prevented. Continuous use of Awish stevia and its complete replacement with sugar can make an effective contribution to the prevention and treatment of diabetes for people. We are proud that we have made an effort to improve the health of the society by producing a health-oriented product..

Each 5 cc sachet of Awish stevia extract with only 5% concentration can sweeten a 200 cc glass of water or tea without adding extra calories to your body. You can easily guarantee your health by replacing a rock candy with an Awish stevia sachet in all kinds of teas on cold days, or making home-made juice such as tansy mustard, chicory and other herbal extracts with stevia on hot summer days. Therefore, stevia is an ideal alternative to sugar for all people who care about their health, especially diabetics.
